Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant discussed an overview of the claimed invention and the perceived differences between the claims and Godefroid and Appelman. Applicant further discussed possible changes to the independent claims to distinguish the claimed invention from the rejection of record. Specifically, that the notifying step of claim 1 is a prerequisite for the determining step of claim 1. The examiner agreed that such an amendment would seemingly overcome the rejection of record, but maintained that such a change necessitates further search and consideration.
